/ PROFILE

I am a Junior QA Engineer with great perseverance and high attention to detail. I have a knack for finding ways to improve the final product. In life, I am meticulous and hardworking, work well in a team, and learn new things quickly. In my free time, I translate programs and games into Ukrainian. My goal is to become a professional in testing and increase the number of truly high-quality products. I am looking for a company where I can be most useful in creating new products or improving and supporting existing ones.

/ PET-PROJECT
